PROFILE

I am an experienced IT professional interested in exploring and applying technology to solve modern day problems. Currently focusing on Front-end (mobile/web/cross-platform) and cloud-native application design and development, with love for Open source software and knowledge sharing.

I am used to being a part of a productive team, but am also able to effectively self-manage during independent projects.

Actively practicing the following technologies:

- React/React Native
- Node.js/Deno
- Java/Kotlin
- MySQL
- RethinkDB, MongoDB
- CSS (SASS, PostCSS, styled-components)

EMPLOYMENT HISTORY

Frontend developer, Sampension

February 2019 – Present, Copenhagen

Riga Technical University

September 2011 – July 2013, Riga

Computer systems, First level higher professional education
Riga Technical University

September 2008 – September 2011, Liepaja

HOBBIES

I enjoy cooking, working out, DJ'ing with my friend and playing video games. I am a bit of a foodie and never say no to a good beer or coffee. Sometimes I can be found coding on a side project with a cup of coffe when I am in a creative mood.
